

EXECUTIVE SUMMARY

**EKAM**

FOUNDATION  
HEALTHY CHILD. HEALTHY COMMUNITY.

KARNATAKA

APRIL 2019

## HIGHLIGHTS

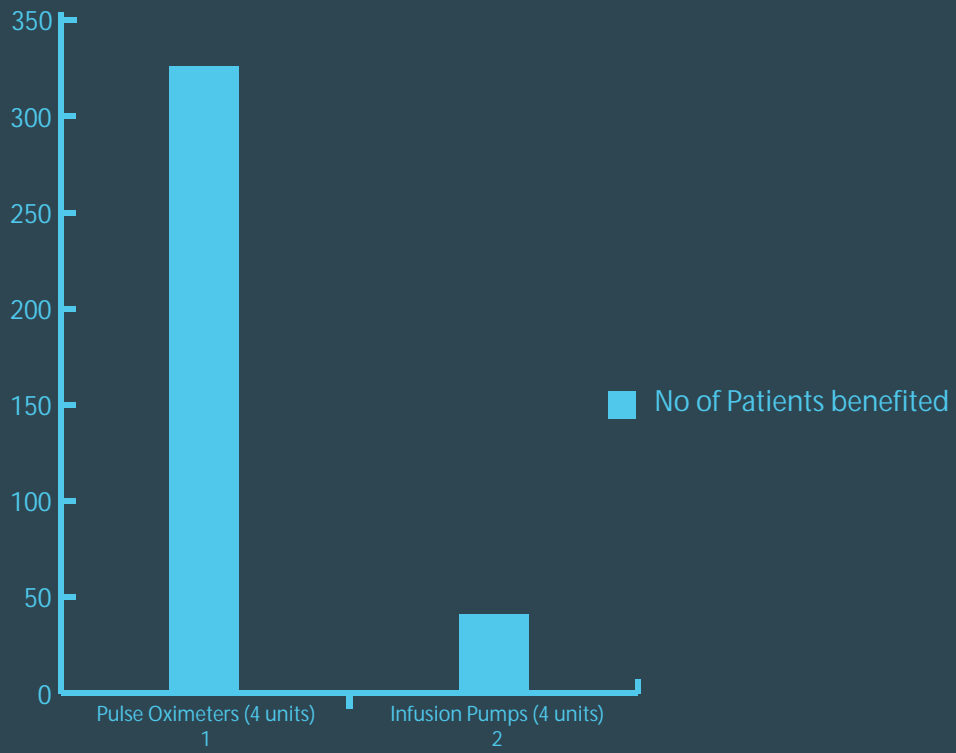

- 360 patients were served through the pulse oximeters and infusion pumps donated by Ekam at Cheluvamba Hospital.
- Treatment for 1 NICU baby was supported at Rangadore hospital this month.

## INCREASING NUMBER OF BENEFICIARIES

4 Pulse Oximeters and 4 Infusion Pumps were donated by Ekam Foundation to the Emergency Ward of Cheluvamba hospital, Mysuru, in December 2018. Around 360 patients benefitted from these this month.

Beneficiaries of donated equipment at Emergency Ward, Cheluvamba hospital, Mysuru in April 2019

Equipment	No of patients benefitted
Pulse Oximeters (4 units)	324
Infusion Pumps (4 units)	36

## USING DONATED EQUIPMENT AT EMERGENCY WARD

# SUCCESS STORY

B/O USHA

Mrs. Usha delivered a female child who was diagnosed with Moderate PT/33+4 weeks/ELB-W/Severe IUGR/Asymptomatic Hypoglycemia/Thrombocytopenia/Anemia. Because of multiple complications, the baby was shifted to NICU for advanced treatment at Rangadore Hospital. The baby had to be treated with special care support and the overall treatment cost was estimated to be Rs. 1,50,590/- . Since the father of the baby is a Weaver, his income was not sufficient to afford for the treatment. Dr. Janaki, Head of Department, then referred the baby to Ekam to support for treatment.. Understanding their poor background, Ekam completed the financial obligations for the treatment and Baby of Usha was treated and later discharged from the hospital.
